

New Technology for Drug Enforcement **ID² Meth Scanner™**

The ID² Meth Scanner is a handheld, battery-operated scanner for detecting powder and crystalline powder forms and concentrations of methamphetamine.

Photoemission Spectroscopy uses UV light to accurately detect minute quantities of methamphetamine in these powders or crystalline powders. This patented device (US Patent #7,154,101 and patents pending) is the new, safe tool for officers involved in drug enforcement.

The ID² Meth Scanner was developed in coordination with Law Enforcement agencies from Arizona, Missouri, Texas and Nevada.

- No messy, expensive "test kits"
- Safer for officers
- Easy to read "Meth" indicator
- Detects trace amounts of methamphetamine in powder and crystalline powder substances without touching the substance
- Tested Sensitivity: .0001 grams/100 cm² (1/10,000 gram/cm² at full beam)
- Laser pointer aids for scanning accuracy
- Continuous scan mode, instant results
- Handheld, lightweight, ergonomic design
- Long-life rechargeable battery; virtually no operating costs
- Battery low indicator LED
- 1 year warranty

ID² METH SCANNER TECHNICAL SPECIFICATIONS

Product Specifications

Length

8" (20.3 cm)

Weight

1.5 lbs. (0.69 kg)

UV Beam Size

2" (5 cm) at 8" (20.3 cm) range

Scanning Speed

10" (25.4 cm) per second

Calculated Sensitivity

.0001 grams (100 cm²) at full beam

Battery Life

8 hours continuous operation without recharge

Maximum ambient air operating temperature

135°F (57°C) at a minimum 5 degrees above the prevailing dew point. The scanner will not function properly on surfaces with moisture condensation.

Minimum ambient air operating temperature

-4°F (-20°C)

Uses and Applications

- Law Enforcement
- Schools
- Corrections Facilities
- Border Patrol
- Airports
- Homeland Security
- Military Bases

Features and Benefits

- Handheld, lightweight, ergonomic design
- Continuous scan mode, instant results
- Safer for officers
- Detects trace amounts of methamphetamine in powder and crystalline powder without touching the substance
- Laser pointer aids for scanning accuracy
- Tested sensitivity: .0001 grams/100 cm² (1/10,000 gram/cm²)
- Easy to read "Meth" indicator
- No messy, expensive "test kits"
- No clean up
- Long-life rechargeable battery; virtually no operating costs
- Battery low indicator LED
- 1 year warranty

Agency Tested and Approved

- Greenlee County Sheriff's Department, Clifton, AZ
- Las Vegas Metro Police Department, Las Vegas, NV
- Fort Worth Special Operations, Fort Worth, TX
- Bullhead City Police Department, Bullhead City, AZ
- California State Highway Patrol, Sacramento, CA
- Santa Cruz City Metro Task Force, Nogales, AZ
- Cochise City Sheriff's Department, Sierra Vista, AZ
- Oro Valley Police Department, Oro Valley, AZ
